

TEACHER NEEDED FOR CADET CLASS

Popular Feature of School
May be Lost.

Prepares Graduates for Teaching and
Superintendent Lieb Favors
Continuance.

ENROLLMENT IS INCREASING.

Unless the school board authorizes the employment of an additional teacher in the High school, one of the most successful features—the cadet class—will be cut out this year and it will mean that graduates of the High school will not have the advantage of a training for teachers.

The Cadet class was composed of members of the twelfth grade and was conducted by Superintendent Lieb, who introduced the feature. He wanted to train graduates for positions as teachers and the success of the experiment is evidenced by the fact that seven of the Cadet class graduates are teaching school, six of them in Paducah. Two declined to teach although assured they could get positions.

"Last year I introduced the feature and felt encouraged from the start," Superintendent Lieb stated. "The members of the class took up the work with a will and while I could not give it much time, the class flourished and at the close of the year the members were well fitted for teachers. This year I will not be able to teach it. The class has been shown to be a benefit to Paducah High school graduates, those who want to teach, and the employment of a regular teacher to take charge of it and do other work besides, will be a wise investment."

The High School.

Already the High school is larger than ever before at the beginning of the first term, and before the year is out will be over 200 strong. Last year at the beginning of the first term the actual enrollment was 112. At the beginning of the second term 39 entered, making the total 170. At the beginning of this year's first term the enrollment the first day was 141, and today it is 150. There are now 50 candidates for the High school.

The First Week.

The first week of school will come to a close tomorrow afternoon and the regular weekly principals' meeting will follow dismissal. The confusion resulting from the start has all disappeared and the schools are running smoothly. The pupils are taking hold of the studies with a will.

ECCENTRIC KENTUCKIAN.

Buried in Grave of Rock—Whisky
Placed in Coffin.

Chicago, Sept. 13.—Col. "Jim" Broder, a pioneer, capitalist and eccentric old citizen of Fulton, died yesterday. Broder two years ago had a solid rock hewn into a grave for himself, and bought a casket, in which he had laid to get a good fit. He kept a piece of meat in the rock for a year to test its preservative qualities. He was wrapped in forty yards of linen which he had purchased some time ago for a shroud. Broder left instructions that he wanted to be buried forthwith, "without any frills," as he often said, so he was laid in the strange grave a few hours after the breath left his body. A bottle of old liquor was interred with the remains of "Col. Jim."

I think interest in a military company here is light and the organization of one would be a hard job."

LOUISVILLE LID MUST STAY ON

Governor Beckham Will En-
force the Law.

Death of Mrs. Martha Gibson May
Be Investigated By Graves
County Officials.

ALL THE NEWS OF KENTUCKY.

Taylorsville, Ky., Sept. 13.—There are backers ahead for the officials in Louisville who propose to allow the saloons to open on Sunday in violation of the law, in case this is their position. Such was indicated by Gov. Beckham yesterday afternoon in a speech to 1,000 residents of Spencer county, in which he stated that he would far prefer to lose the race for United States senator than to see the Sunday law broken, and when he also stated that he would strain every power of the chief executive to enforce the Sunday law. In closing Gov. Beckham made this significant remark: "If the power of the governor is not sufficient at present to force officials to obey the law it is time that the power of the governor be extended."

Gov. Beckham, in his speech, took up the enforcement of the Sunday law, particularly as it applied to Louisville, and spoke on this subject for nearly an hour.

Body Was Spotted.

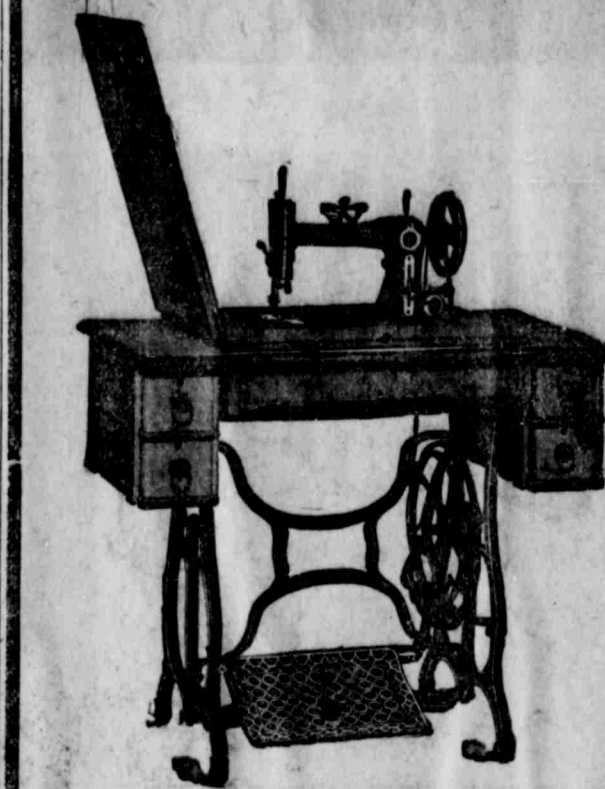

Mayfield, Ky., Sept. 13.—The body of Mrs. Martha Harper Gibson, a bride of about a week, was laid to rest Tuesday afternoon in the Macedonia graveyard. Owing to the peculiarities surrounding her death many rumors are afloat and it has been suggested that an official investigation might bring forth some startling revelations. It is known, and the attending physicians have so announced, that Mrs. Gibson's death was due to swallowing some kind of poison. Before her death she was of a purple and spotted color and other symptoms have appeared which indicated that she had eaten poison. Some have advanced the theory that she swallowed a poisonous insect or Paris Green while eating peaches as immediately after eating the fruit last Friday, she became violently ill and continued to grow worse until relieved by death Monday afternoon.

MUST TAKE OUT LICENSE.

Revenue Agent Goes After Nashville's Under World.

Nashville, Tenn., Sept. 13.—The Middle Tennessee revenue agent proposes to join in the suppression of lawlessness by issuing distress warrants against some of the prominent "Red Light" resorts for the purpose of collecting unpaid tipping license. In these resorts it is the custom to have beer and often wine on sale, and the only license they have heretofore paid has been to the government. Since the 12 o'clock closing law went into effect they have done a land office business, and on the attention of the revenue agent being called to the fact that they were operating without tipping licenses, warrants for 23 were issued. Hearings upon the warrants will be had before the county court clerk.

NO DANGER TO UNCLE JOE.

Is Opposition of Compomers in Illinois,
Says Hopkins.

Oyster Bay, N. Y., Sept. 13.—"If Speaker Cannon depends on Compomers to knock him out, he can remain in public life as long as he likes." This was the comment of Senator Hopkins, of Illinois, who was one of President Roosevelt's callers today. Hopkins admitted that the Republicans of Illinois may lose two congressional districts and one in the southern portion of the state, all of which he maintained are normally Democratic districts. Otherwise, he said the outlook in Illinois was decidedly good.
